

JIM BOOTH

Technical Sales Leader | Data Center & AI Infrastructure | Storage Expert
Denver, Colorado | 303.981.6276
jimbooth@me.com | [LinkedIn Profile](#) | [Website](#)

PROFESSIONAL SUMMARY

High-impact technical leader with 20+ years of experience bridging the gap between complex engineering and revenue generation focused of **Data Center Modernization, Enterprise Storage and Cloud**. Recently drove over an **8-figure pipeline of 300MW in AI Factory Cooling** solutions in under 12 months. AI infrastructure specialist dedicated to leveraging **Agentic and Generative AI** to streamline sales process and modernize infrastructure.

PROFESSIONAL EXPERIENCE

ACCELSIUS | *Sr. Solution Architect* | Nov 2024 – Feb 2026 | Remote

- **Revenue Impact:** Secured **300MW AI Factory Cooling** agreement as the primary technical closer, directly supporting a team of 5 to scale revenue
- **Strategic Leadership:** Promoted to Sr. Solution Architect within 5 months. Delivered strategic technical presentations from C-Level executives to engineering stakeholders.
- **Sales Enablement:** Created 20+ technical assets 30+ proposals, **reducing the average sales cycle by 30%+** by streamlining the engineering-to-sales handoff.

SADA (An Insight Company) | *Sr. Cloud Engineer* | Mar 2022 – July 2024 | Remote

- **Cloud Modernization:** Empowered customers to build scalable HA solutions on Google Cloud Platform (GCP) using Kubernetes and serverless cloud services.
- **Client Success:** Led comprehensive infrastructure assessments, delivering prescriptive roadmaps that accelerated cloud adoption and app modernization.
- **Mentorship:** Mentored junior engineers on sales strategy and customer champion development, increasing team efficacy in technical POCs.

CISCO SYSTEMS | *Technical Solution Architect – Cloud* | Oct 2013 – Mar 2022 | Denver, CO

- **Regional Technical Lead:** Served as the primary Technical Closer for the US West region, driving the adoption and architecture of Hyper-converged Storage infrastructure.
- **Cloud Native Mentorship:** Spearheaded internal mentorship of engineering team on Kubernetes, Containers, and Cloud Native technologies.
- **Solution Design & Automation:** Executed high-stakes Proof of Concepts (POCs) and performance analyses, utilizing custom scripting to automate data protection.

- **Strategic Consulting:** Delivered technical strategy presentations and consultations to clients, aligning storage architectures with long-term business objectives.

PREVIOUS LEADERSHIP & ENGINEERING SUCCESS

- **NetApp** | *Systems Engineer* (2011–2013): Achieved **127% sales attainment** in 2013, providing technical leadership for a sales territory with a **\$10M+** goal.
- **WHIPTAIL / XIV (IBM)** | *System Engineer & Regional Architect* (2009–2013): Specialized in pre-sales support for All-Flash arrays and the XIV enterprise storage platform across the Western US.
- **EMC** | *Advisory Technical Consultant* (1995–2000; 2007–2009): Managed strategic accounts and performance software solutions in the Bay Area and Western region.
- **Early Leadership** (2000–2007): Held key management roles including **Managing Director of Systems Engineering** at CreekPath Systems and **Technical Product Manager** at Veritas.

EDUCATION & CERTIFICATIONS

B.S. in Computer Engineering | Kansas State University
Machine Learning Specialization | Stanford University

Cloud Certifications

- AWS Certified Solutions Architect
- AWS Certified Developer
- AWS Certified SysOps Administrator

TECHNICAL SKILLS

- **Technical Stack:** Storage (EMC, NetApp, IBM, etc.), GPU (Nvidia, AMD, etc.), Linux (RHEL/Debian), Google Cloud Platform (GCP), AWS, K8s
- **Core Competencies:** Sales Engineering, Data Center Modernization, Challenger Selling, Driving POC, RFI/RFP Projects.
- **AI & Emerging Tech:** LLMs, Claude Code, NotebookLM, GPU Cooling Infrastructure.
